SKILLS

- **Languages**: C++, Java, Python, SQL
- **Frameworks**: HTML, CSS, Scikit-learn, GitHub
- **Tools/Platforms**: Excel, Spyder, Power BI, IntelliJ IDEA,MySQL
- **Soft Skills**: Problem Solving, Time Management, Adaptability, Diligence

PROJECTS

Loan Approval Prediction | Github Jan.2025-May.2025

- Developed a Machine Learning–based Loan Approval Prediction system to analyze applicant data and accurately determine loan approval outcomes.
- Implemented supervised learning algorithms with features like income, tenure, CIBIL score, and asset values to identify key approval determinants and enhance prediction accuracy.
- Enhanced decision-making efficiency by providing data-driven risk assessment and prioritizing high-probability approvals, improving the bank's operational workflow and customer service experience.
- **Tech:** Python, Pandas, NumPy, Scikit-learn, Matplotlib, Machine Learning.

Global Landslide Catalog |Github Sep.2024

- Conducted a comprehensive Data Cleaning and Preprocessing workflow on the Global Landslide Catalog dataset to ensure high-quality, consistent data for analysis.
- Analyzed landslide patterns through insights such as Top 10 Countries by Fatalities, Distribution of Triggers, Distribution of Landslide Sizes, and Year-wise Fatalities Time Series to understand global risk trends.
- Visualized geographical and trigger-based vulnerabilities using a Heatmap of Events by Country and Trigger (Top 10 Countries), supporting informed disaster management decisions.
- **Tech:** Python, Pandas, NumPy, Matplotlib, Seaborn, Data Visualization, Exploratory Data Analysis (EDA).

TRAINING

Child Rights and Education | NGO May.2025

- Taught students of Classes 4th–8th about Fundamental Rights, moral values, and general awareness through interactive and practical learning methods.
- Engaged children using storytelling, discussions, and activities to improve understanding and participation.
- Organized fruit distribution and participated in a tree plantation drive to promote health and environmental awareness.
- Collaborated with NGO members to plan sessions while developing key soft skills like communication, leadership, and teamwork.

CERTIFICATES

- Basics of Data Structures and Algorithms | LPU July.2025
- Computational Theory | Infosys July.2025
- Java Programming | LPU May.2025
- The Bits and Bytes of Computer Networking | Google Sep.2024
- Responsive Web Design | Free code camp Nov.2023

ACHIEVEMENT/ EXTRA-CURRICULAR ACTIVITIES

- Ranked in the Top 5 at Webका Hackathon – A 24 hours Hackathon(Lovely Professional University).
- Participated in NGO activities tree plantation and teaching underprivileged children.

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology Computer Science and Engineering Aug.2023 – Present
- **Navjeevan science Public School** Sikar, Rajasthan
  Intermediate; Percentage: 77.6% Apr. 2021 – Mar. 2022
- **Kendriya Vidyalaya Kanpur** Kanpur, Uttar Pradesh
  Matriculation; Percentage: 77.4% Apr.2019 – Mar.2020
